I am a final-year Informatics student with a solid foundation in networking and a strong problem-solving mindset. I am eager to apply and further develop my skills by supporting infrastructure maintenance and contributing to the development of robust and secure systems. Motivated to face real-world challenges and grow through hands-on experience in a professional environment.

EDUCATION

President University

2023 - Present

- Major in Informatics
- Completed a bootcamp-style semester focused on Cybersecurity, including intensive weekly modules on web penetration testing, digital forensics and risk assessment.
- **Awardee:** Jababeka Scholarship
- **Current GPA:** 3.79/4.0

PROJECT

Cyber Security Education Platform – Icon+

April 2025 - May 2025

- Developed a secure and scalable backend using Go (Golang), implementing RESTful APIs for user management, content delivery, and activity tracking.
- Conducted penetration testing on both the platform's network infrastructure and web application, identifying and mitigating vulnerabilities.
- Collaborated with the development and security teams to integrate secure coding practices and improve system resilience.

Finance Tracker

June 2025 - July 2025

- Built a full-stack web platform enabling smooth interaction between a Go backend and a JavaScript frontend, enhancing accessibility and usability for end users.
- Delivered a deploy-ready containerized solution that ensured consistent performance and easy scaling, improving reliability for real-world use.

Student Enrollment System

December 2024

- Developed a Java-based application using a structured Gradle build system, ensuring reproducible builds, streamlined dependency management, and consistent development workflows.

SKILLS

- **Hard Skills:** Routing, Switching, Backend Development, Penetration Testing, DevOps Basics
- **Soft Skills:** Team Management, Communication, Problem Solving, Analytical Thinking
- **Languages:** Indonesia (Native), English (Intermediate)

CERTIFICATION

- Fortinet Certified Associate in Cyber Security
